GRONY MULTIMEDIA – COMPLETE CHECKLIST (Master + Grony 2 station pack)

Tick each box • "How:" = the procedure • Red tags (G2-1) = problems to fix • Page 3: diagrams, printer table, location chart, done log • Staff only – not for customers' view

Date: _____ Checked by: _____

HOW TO USE: every line is a check – tick the box when done; fix it or report it to Joe. **RED MARKERS** are problems seen in the shop photos; tags (G2-1) match the Grony 2 diagram on page 3. Grony 1 and Grony 2 each run as a **standalone printing press** – only large format (Grony 5) means leaving your station. **SECTIONS:** shop-wide rules → Grony 1 → Grony 2 → Grony 3 → Grony 4 → Grony 5 → Grony 6 → Grony 7 & 8 → shop-wide red markers, projects and apps → page 3 (diagrams, printers, location chart, done log). Each station reads on its own.

A. OPENING – every day

Before the first customer.

1. Clocked in with the GM app, location ON.
   How: Manage → Team Times → Clock in (first in = Opener). Breaks: Take a Break / End Break. Manual entry only if unable – with reason, max 5 a month. Absent or late? Post on the app announcement first.
2. Floor mopped; printers, tables and showcases dusted with rag and brush.
3. UPS ON, charging and connected to the Epson EcoTanks.
4. Every printer on **power and USB** to its computer – even unused ones.
5. Every printer's **letter sticker** matches its name on screen.
   How: Settings → Printers & scanners → printer → Printer properties → General → name it exactly as in the printers table (page 3), e.g. "B - Epson ET-2860" (letter first, plain hyphen) → print a test page. Nothing in the queue; admin account. Same names on Grony 1 & 2.
6. Every printer tested. Faults reported.
   How: Faulty item → lower shelf of Boys' showcase with a note (item, fault, date, name) → tell Joe same day → Joe informs the owner and arranges repair.
7. Company phone charged **only** at the back; bags, food and water kept at the back.
8. Laptop wallpapers solid black; I'm in **my own Chrome profile** – company account only. **No personal email signed in on any browser.**
   How: Chrome profile icon → Add → Continue without an account → staff name.
9. Anyone who **phoned about an appointment** is called back as soon as I reach the shop – never forgotten; that is customer dignity.
10. 32-inch TV on, company advert on repeat; jingle played at the roadside.
11. **Joe:** CCTV app checked – every camera showing.
12. Fire: extinguisher in place, unblocked, gauge in the green; gate and exits clear.

B. DURING THE DAY – all day, not once

13. No eating or drinking at the front panel; no food, water or bags on front tables.
14. Customers kept out of the inner shop (staff only) – politely asked to step outside.
15. Seated, standing only for passport photos or large format; assistant routes customers and passes items.
16. Every new customer registered with a **GM number**.
    How: Greeting message sends app.gronymultimedia.com/register automatically. If missed, send the link or add them in the app → New Customer.
17. Each customer's files **only** in a folder named with their GM number; WhatsApp contact saved as "GM24 – Full Name".
18. Customer details and logins kept private – never shared or reused.
19. **Every customer is taken seriously** – greeted, listened to, order written down, a time given – above all anyone who has **walked in to request work**.
20. **Complaints logged:** every customer complaint and every case of staff incompetence is written on the complaint log on the **left of the glass showcase**, with date and details.
21. Every message answered within **1 hour**; prices quoted only from the price list.
22. Names, dates and index numbers proofread before printing. Many files or copies: check the **quality and size of the first printout** before printing the rest.
23. Right Claude chat used for each job – an hour's work done in minutes.
24. Only approved apps used (R–S); nothing new installed.
25. Other printers used; **HP M880 reserved** – extreme cases only.
    How: Try every other printer first → tell Joe → log date, job, pages → leave it on standby, plugged in, on USB.
26. Every walk-in sale in **Live Sale** with **WIC** on (GMC only for the shop's own use).
    How: Item → type Qty (change Price only if this sale differs) → green tick. All walk-in sales go on one combined daily receipt. Mistake? Undo straight away and re-enter.
27. Every bill: receipt attached (demand it from vendors), vendor name, full list of goods adding up to the total, canonical item names. Cuttings recorded as expenses.
28. Every sellable item is on the item list; count exclusions entered as numbers – **blue** = safe, **red** = flag.
29. **COUNT NOW** items counted; warning banners cleared.
    How: Tap item → count the shelf → submit. Missing SP/CP/group → Edit → Save. Negative stock → look for an unentered bill. Net gain → check count history for a miscount, unrecorded receipt or duplicate.
30. Pen drives, memory cards, routers back in the showcase or Grony 3/4 straight after use.
31. Any setting or location I might forget is labelled; any new success procedure written down.
32. Goods in **like terms** (same type, same side, label out); old goods in front, new behind; none on the floor.
33. Grony 4 path clear; storage goods on the Grony 4 shelf; hanging items on the last shelf of the Boys' showcase; ceiling goods fastened.
34. **No banners at Grony 6 & 7**; no other company's logo, design or advert displayed anywhere.
35. **No cable lies across any path or walkway** (extension-board wires may pass under printers); no extension board plugged into another; cables checked.
36. No smoking or naked flame; ink and paper away from heat.
37. **Power cut:** UPS **off** when there is no work, **on** only when needed; the moment power returns it goes back on charge – it must always be kept charging.

B2. CUSTOMER TRUST – COMPANY CHANNELS ONLY

The company number is also the Mobile Money number.

38. The customer's **WhatsApp chat is the source of truth**: reply there, send receipts there, put every conversation about their work and every payment there.
    How: Rename the contact to their company code: "GM24 – Full Name".
39. Customer not sending work on WhatsApp? Ask them to send "**hi**" to the company number, then **save the contact** with their GM number.
40. **Work goes only through official company channels** – the company number, email address and website – never to personal numbers or personal WhatsApp lines.
41. **No personal phone number** – mine or any staff member's – is given to any customer.
42. **No personal Mobile Money number** is given to customers; they pay to the company MoMo number.

B3. SALES, CUSTOMERS & RECEIPTS – LIVE SALE

Every sale tied to its customer. Full steps: one-page staff guide (Grony_Staff_Guide_Sales_and_Customers).

43. Every sale to a known customer carries their **GM number or 10-digit phone** in the GM box.
    How: GM box on the item card: type the number (e.g. 45), a phone starting with 0, or the first letters of the name and pick from the list → green tick. No customer? Leave it empty.
44. A phone number not on our list is **saved as a new customer**.
    How: Type the name in the box that drops down. For email, location and services use Full registration. Tell the customer their GM number.
45. After each sale with a customer the **WhatsApp purchase message** is sent.
    How: Tap Send on the card that appears, then press send in WhatsApp. It shows what they bought, the total and their total work with us.
46. A customer buying **several items** is sold through **MI**: one basket, one receipt.
    How: Press MI → add each item (green tick, or type its name in the basket) → type the customer → press the big green button → Print or Send.
47. **Past days** are entered only with **+ Past sale** and the right Sale date; the same work is never typed twice.
    How: Sales Log → + Past sale → pick the date → items → customer → green button.
48. Sales Log checked: every row shows its customer; missing ones added.
    How: A faint plus sign in the Customer column = none recorded: tap it and add the GM number, phone or name. Tap a customer's name to issue the day's receipt or see all their jobs.
49. Receipts are issued from MI or the Sales Log, never typed into Customer Receipts.
    How: Cust. Receipts is for history, search and printing only.
50. A sale the app refuses (price below cost, not enough stock) is **not forced**: tell Joe.

D. SOCIAL MEDIA – every day

51. At least **1 video clip** recorded and saved in the Drive Video folder.
    How: Phone upright on tripod, facing the light, 10–30 s, result in first 3 s, clip-on mic if speaking. Film work, large format, neat goods, customers (with permission).
52. Posted: TikTok → Facebook Reel → WhatsApp Status & group.
    How: CapCut → Template → add clips → Auto captions → end text with the company number (on the monitor sticker) → Export.
53. At least **1 service design photo advert** posted on WhatsApp (from Drive or the app's Photo Advert section).
54. Ideas tried: banner printing out, before/after typing, customer collecting (with permission), admission reminders, stickers being applied.
55. Company phone posted updates to the **WhatsApp group/Channel**; captions and replies drafted in the phone's own Claude chat.
56. Shared by every staff member on personal pages.
    How: Facebook: Share → Feed, then Share → Story. TikTok: Share → Repost.
57. No customer face, CV or document posted without permission.
58. Comments and messages on Facebook, TikTok and WhatsApp answered.
59. Social media lead confirmed posting and replies done; more posts in busy seasons (WASSCE, admissions, reopening, church & funeral events).
60. Company passwords, emails and recovery details left unchanged.
61. My personal Facebook workplace is set to Grony Multimedia and the company TikTok handle is in my bio (once).

E. CLOSING – every day

Before locking up.

62. Desktop, Documents and Downloads empty on both laptops.
    How: Customer files → GM folders; everything else → delete; empty Recycle Bin.
63. Pen drives, cards, routers and modems stored in the showcase or Grony 3/4.
64. Tables decluttered; everything back in its labelled place.
65. All sales, bills and expenses of the day recorded in the **GM app**.
66. **Laminator** switched off, unplugged and cooled; bin emptied; WASTE PAPERS sorted – full documents torn into the BIN.
    How: Waste-paper slot is for test prints only. Customer or official documents: tear into pieces, then BIN.
67. Laptops shut down; TV off; printers off at their button but **still plugged in and on USB**; UPS charging.
68. Sockets not overloaded; gate area clear; locked up.
69. Clocked out; the Closer answered the closing questions in the app.

F. WEEKLY & SET DAYS

70. **WEDNESDAY:** fire alarm tested.
    How: Tell everyone → hold the test button until loud → no sound: new battery, retest → still faulty: report to Joe.
71. **WEDNESDAY:** item groups checked – every good in the right group.
72. **SATURDAY:** CAB officer confirmed cash at bank in the app.
73. Week's clips edited in CapCut and scheduled (Meta Business Suite → Planner).
74. Printer covers washed.
75. Phone and both computers have **only approved apps**.
    How: Phone: Settings → Apps → Uninstall. PC: Settings → Apps → Installed apps → 3 dots → Uninstall. Unsure? Ask Joe.
76. TV advert updated with new work or offers.
77. At least **5 new customers** registered and **5 added** to the WhatsApp group; bulk message sent about new products.
78. CCTV recording; owner's devices still linked.
79. **Windows USB** is present and in its place (always keep one).
80. WhatsApp check-in with the owner: posts, enquiries, faults, stock needed.
81. Sound card & mic used only for jingles, voiceovers and info-centre adverts – recorded in batches, saved to Drive.

G. MONTHLY & YEARLY SYNC

Write the date beside each tick.

82. General staff meeting held; next date known a week ahead.
83. **Shop photos** with descriptions sent to the owner.
    How: Front & signboard, Grony 1–7, large format, inner shop, both showcases, charging point. For each: area – what's there – what changed – any problem. Owner gives them to Claude to update this checklist and the layout.
84. Printer drivers still work (test page from each printer); each printer's Claude chat and information sticker still in place.
    How: A printer that fails a test page: open its Claude chat and re-follow the driver steps.
85. Location chart and printers table (page 3) correct; printer stickers updated and snapshots sent.
86. Checklist posted at vantage points; sticker labels intact.
87. Price list current and with all staff.
88. Greeting message and registration link work (test from another phone).
89. Facebook Page roles and Chrome profiles match current staff; leavers removed the same day.
90. AnyDesk works; signboard and banner in good condition; M880 log reviewed.
91. Every repair needed is listed as a task in the GM app with a deadline.
92. **YEARLY** (and after any use): fire extinguisher serviced or refilled.

H. KNOW & APPLY – tick once you can do it

93. I can use the extinguisher: **Pull, Aim, Squeeze, Sweep**; switch off at the mains if safe; never water on electrical fires; small fire only with a clear exit, else everyone out and call **192**.
94. Two laptop setups serve every customer – speed comes from sharper skills.
95. I report problems early – a small fault today saves a big cost tomorrow.
96. I keep this checklist out of customers' view. Not knowing is no excuse.
97. I know the app words: **SOH** stock on hand • **SP** selling price • **CP** cost price • **WIC** walk-in customer • **GMC** Grony Multimedia as customer • **CAB** cash at bank. I search the app's Handbook before asking.
98. I can design a poster or flyer with Claude.
    How: claude.ai → Settings → Connectors → Canva (shop account only) → new chat: purpose, exact text, size, "make it in Canva" → review and correct → download/print → save to Drive → display if it is a service design.

GRONY 1

Standalone printing press • window counter, right side • Samsung monitor • HP laptop

Seen in photos / GM app: *HP Elitebook 840 G8 (1); Samsung S22B350H monitor; HP black-and-white MFP ("HP BLACK AND WHITE 1"); an Epson printer (letter to confirm); grey photocopier; stapler; paper reams; wall "Staff note" sticker.*

GRONY 1 – DAILY STATION CHECKS

The station must run standalone.

99. Laptop, printers and scanner working and clean.
100. **BIN**: rubbish and unusable paper only; official documents torn into pieces first.
101. **WASTE PAPERS**: spoilt or unused prints only.
102. **PRINTING PAPERS** stocked and clean: A4, 4×6, 5×7.
103. A3 sheets flat – **never folded**.
104. Permanent marker present; chargers wrapped with 2–3 rubber bands.
105. Everything for printing within reach; anything missing reported.
106. Laptop name is **Grony-1** and Bluetooth is on; for a customer sending a file by Bluetooth: Win+R → **fsquirt** → Receive files.
    How: Settings → System → About → Rename this PC → Grony-1 (no spaces) → restart.
107. **Company-number sticker** (A4 landscape) on the back of the Samsung monitor is flat, clean, facing customers; **weekly:** scan both QR codes (WhatsApp, registration) with a phone.
    How: Grony_1_Monitor_Sticker_A4.pdf. The registration QR works only once the form is live.
108. Wall **"Staff note"** sticker (keep WASTE PAPERS, CUSTOMER DOCUMENTS, TEMPLATES neat) is still in place.
109. Every printer here has its letter sticker, driver, Claude chat and information sticker (printers table, page 3).
110. No cable across the walkway; desk and printer tops clear of loose papers. **(G1-1)**

GRONY 1 – RED MARKERS

Fix, then tick.

111. **G1-1** Cables across the floor under the desk; papers piled on the desk and printers.
    How: Bundle cables off the floor; clear the desk daily.

To complete this section, send close-ups of each Grony 1 printer (letter, model plate), the shelves or slots, the floor and the sockets.

GRONY 2

Standalone printing press • window counter, left side • Philips monitor • printers B, D, F, G, the HP black-and-white MFP and the laminator

GM app: *HP Elitebook 840 G8 (2) and "HP 880 A3 PRINTER B" (rename it to match the letters).*

GRONY 2 – DAILY STATION CHECKS

The station must run standalone. Other checks are in the shop-wide rules.

112. Laptop, printers and scanner working and clean.
113. **BIN**: rubbish and unusable paper only; official documents torn into pieces first.
114. **WASTE PAPERS**: spoilt or unused prints only.
115. **PRINTING PAPERS** stocked and clean: A4, 4×6, 5×7.
116. A3 sheets flat – **never folded**.
117. Permanent marker present; chargers wrapped with 2–3 rubber bands.
118. Everything for printing within reach; anything missing reported.
119. **Pen on a rope** is on the customers' table, the pen writes and the rope is secure.
    How: Tie the pen to the table edge with a short rope; replace it when it dries.
120. **Company-number sticker** on the back of the Philips monitor is flat, clean and facing customers; **weekly:** scan its QR with a phone – it opens a WhatsApp chat with the company number.
    How: Torn or faded? Print a new one (Grony_Company_Number_Sticker.pdf), laminate, tape all four edges, below the vents.
121. **UPS** (TOP EDGE) is on with its **green light** showing; Epson printers **B, D, F, G** are on power and USB to this computer. **(G2-1)**
122. **Laminator** is off and cool; nothing rests on or beside it. Ink tank and tubes dry (no leaks). **(G2-3, G2-4)**
123. I chose the right **letter** on screen for every job.
124. Finished jobs wait in **CUSTOMERS' WORK TO BE COLLECTED**, each in an envelope marked with the GM number and name; collected jobs removed. **(G2-8)**
125. Staplers, cutter, tapes, pens and scissors are back in their place after use.
126. No socket overloaded; no loose paper near the wall socket or boards. **(G2-1, G2-2)**

GRONY 2 – SHOWCASE LIST

Check all are available (as printed on the sticker).

127. Cellotapes
128. Brown envelopes
129. Polythene bags – in a brown envelope
130. Stapler
131. Staple pins – in a brown envelope
132. Cuttings – in a brown envelope; a few ready, rubber-banded
133. Online forms – in a brown envelope
134. Scissors
135. Passport cutter
136. Passport envelopes – in a brown envelope

GRONY 2 – WHAT EACH PLACE HOLDS

BIN, WASTE PAPERS and PRINTING PAPERS are in the daily checks above.

- **Tools shelf** – tapes, staplers, correction pens, markers, cutter, stamp.
- **Glass showcase** – stock for sale; tools do not belong here. **(G2-10)**
- **CUSTOMERS' WORK TO BE COLLECTED** – finished jobs in marked envelopes only.

GRONY 2 – RED MARKERS

Numbers match the red circles on the Grony 2 diagram (page 3). Fix, then tick.

137. **G2-1** Extension boards and cables on the floor by printers C, E and the shelf units.
    How: One board per station, fixed off the floor, plugged straight into the wall. No board into another board. Cables bundled off the walkway.
138. **G2-2** Wall socket on the wooden unit with cables dangling right above the stationery.
    How: Electrician secures socket and cables; keep paper and tapes away from it.
139. **G2-3** External ink tank (CISS) and tubes loose beside the UPS.
    How: Stand tanks in a tray away from the UPS; secure the tubes; wipe any spill.
140. **G2-4** Hot laminator on the shelf directly above the bin.
    How: Off and unplugged at closing; cool before leaving; keep paper and bin away from it.
141. **G2-5** Bin is an open cardboard box of plastic and paper, with a second box under it.
    How: Proper lidded bin; emptied daily at closing.
142. **G2-6** WASTE PAPERS slot overflowing, with full printed documents inside.
    How: Empty daily; tear documents into the BIN; test prints only.
143. **G2-7** PRINTING PAPERS slot: ream torn open, wrapper crumpled, sheets spilling.
    How: Keep the ream in its wrapper, upright and flat.
144. **G2-8** CUSTOMERS' WORK slot: prints and posters stuffed in loose.
    How: Each job in an envelope marked with GM number and name; collected jobs removed daily; never fold A3.
145. **G2-9** Printers D, F and G stacked on one thin shelf.
    How: Keep vents uncovered and tops clear; check the shelf takes the weight.
146. **G2-10** Glass showcase: stock mixed with loose tools and wires; protective film still on the glass.
    How: Sort stock by type; tools into a toolbox; peel the film off.
147. **G2-11** Showcase sticker lists work items, but they sit on the wooden unit.
    How: Move the sticker to the unit, or the items into the showcase.
148. **G2-12** Faded tape labels and torn sticker residue on the HP printers.
    How: Clean off; one permanent info sticker per printer (letter, model, rule).
149. **G2-13** Paper company-number sticker taped across the top vent slots of the Philips monitor.
    How: Fix the new sticker on the flat back panel below the vents; tape all four edges; keep vents clear.

GRONY 2 – EASY WAYS TO DO EVERY SERVICE (DRAFT: owner to confirm each method)

BEFORE EVERY JOB: **1** New customer? Make sure they are registered and have a **GM number**; open their GM folder. **2** Save every file in that GM folder – never on the Desktop or Downloads. **3** Choose the printer by its **letter** (see "Which printer?"). **4** Quote from the price list; record the sale in **Live Sale** (WIC on) before handing over. Replies, receipts and payments go in the customer's WhatsApp chat – company number only.

WHICH PRINTER?: **1** **B** – scanning, copying, quick A4 colour. **2** **G** (or **D**) – photos and passport photos. **3** **HP black-and-white MFP** – black-and-white copies and documents. **4** A3, or anything else: ask Joe first – the **HP M880m (C, E)** is reserved for extreme cases. **5** Large format, binding, stickers: **Grony 5**.

TYPING – from handwriting: **1** Lay the pages flat on printer **B** and scan them (Epson Scan 2, 300 dpi) into the customer's GM folder. **2** Open the Claude chat **"Handwritten transcript"**, upload the scan and ask for a **Word document**. **3** Check every name, date and number against the handwriting; ask the customer about words you cannot read. **4** Open it in Word, fix the layout, save it in the GM folder. **5** Print by letter and hand over with the original.
Tip: straight, flat scans transcribe best.

TYPING – from a file or message: **1** Save the customer's file in the GM folder; **Save As** a new name – never change the original. **2** Edit in Word (PDF: open it in Word, or ask Claude to convert it). **3** Check, print by letter, save.

CV · LETTER · FORM · INVITATION: **1** Get the customer's details (WhatsApp or in person); ask for anything missing. **2** Paste them into the matching Claude chat and ask for a **Word document** in a clean layout. **3** Check spelling, names, dates and phone numbers with the customer. **4** Print on B (colour) or the HP black-and-white MFP; save the Word file in the GM folder.

SCAN: **1** Place the document flat on **B**; scan to PDF (Epson Scan 2). **2** Name it with the GM number and what it is, e.g. "GM24 – results slip". **3** Send on WhatsApp or email if asked; keep a copy in the GM folder.

PHOTOCOPY: **1** Few or colour copies: copy on **B**. Many black-and-white copies: the HP black-and-white MFP. **2** Make one copy and check its **quality and size**, then the rest. Spoilt copies go in WASTE PAPERS. **3** Staple or sort; hand over with the original.

PRINT A CUSTOMER'S FILE: **1** WhatsApp file: save it from the company WhatsApp on the laptop into the GM folder. Pen drive: scan it with Windows Security, copy the file in, give the drive back. **2** Open it; check page size, orientation and page count. **3** Print preview, pick the printer by letter; print the **first page** and check its quality and size before the rest. **4** Put the job in a marked envelope in CUSTOMERS' WORK.

PHOTO PRINTS: **1** Photo paper in **G** (or D); make sure the paper size on screen matches (4×6, 5×7…). **2** Open the photo and print at best photo quality, no scaling. **3** Let it dry before touching; hand over in an envelope.

PASSPORT PHOTOS: **1** Plain background, face straight, shoulders level; stand to snap. **2** Size and crop with the shop's passport photo editor. **3** Print on 4×6 photo paper (G or D). **4** Cut with the **passport cutter**; hand over in a passport envelope.

LAMINATION: **1** Switch the laminator **ON**, set the heater and wait for the ready light. **2** Put the document inside the right-size pouch; feed the sealed edge first. **3** Catch it and lay it flat to cool. **4** At closing: switch off, unplug, let it cool.

DESIGN – poster, flyer, invitation, ID card: **1** In Claude (design chat) say what it is, the size, the exact wording and colours; ask for it in Canva. **2** Review it and ask for changes in plain words until it is right. **3** Download the PDF; print a test on B; check spelling and numbers with the customer. **4** Bigger than A3: take it to **Grony 5**.

ONLINE ADMISSION APPLICATION: **1** Check the portal is open and what it needs (documents, photo, results). **2** Scan the applicant's documents on **B** into their GM folder. **3** Fill the form with the applicant beside you; they check every detail **before** you submit. Never save their password in the browser. **4** Print the confirmation or payment slip; record the sale in Live Sale.

LARGE FORMAT · BINDING · STICKERS: **1** Go to Grony 5 with the file – the assisting staff covers your counter and fetches what you cannot reach. **2** Bring the finished job back to the customer's envelope or hand it over.

A PRINTER FAILS MID-JOB: **1** Stop sending the job; clear a simple jam. **2** Open that printer's **Claude chat** (instructions + drivers) and follow it. No chat? Flag it to the owner. **3** Send it again on another letter (not the M880m unless extreme). **4** Faulty machine: lower shelf of the Boys' showcase with a note; tell Joe.

GRONY 2 – INVENTORY: properties, tools & materials

Count each item, write the number, tick when present and in good condition; report anything missing to Joe. The GM app gives 190 of 197 properties no location – set each checked item's location to Grony 2 in the app.

GRONY MULTIMEDIA – COMPLETE CHECKLIST (Master + Grony 2 station pack)

Tick each box • "How:" = the procedure • Red tags (G2-1) = problems to fix • Page 3: diagrams, printer table, location chart, done log • Staff only – not for customers' view

Date: _____ Checked by: _____

COMPUTER & POWER

- Grony 2 laptop + charger ☐
- Philips monitor + power and video cables ☐
- Mouse, mouse pad (and keyboard if separate) ☐
- UPS (TOP EDGE) + its cable ☐
- Extension boards (qty ___) – none on the floor ☐
- USB cable for every printer (qty ___) ☐
- Power cable for every printer (qty ___) ☐
- USB hub / adapters on the desk ☐

GRONY 2 – NOTES: new problems seen (date, what, name)

1. _____
2. _____
3. _____

GRONY 2 – PRINTER & DEVICE INFORMATION STICKERS (cut out; stick on each printer)

Print at 100%. Fill the blanks (Claude chat name, serial no., technician). Safe-use lines are general – the owner confirms them for each model.

B – Epson EcoTank ET-2860

Grony 2 • A4 colour printer, scanner, copier • Wi-Fi + USB

USE FOR: Scanning, copying, quick A4 colour prints.

SAFE USE

- Switch off with the power button – leave it plugged in and on USB.
- Refill only the matching colour; bottles upright; fill to the upper line; wipe spills at once.
- Keep it level – never tilt it or carry it with ink in the tanks.
- No food or drink near it; keep vents and top clear.
- Lift the scanner lid gently; wipe the glass with a soft dry cloth only.

Claude chat: "_____"

Serial: _____ **Technician:** _____

Keep on power + USB • Fault: lower shelf of the Boys' showcase + note, tell Joe

C – HP Color LaserJet Managed flow MFP M880m

"HP COLOUR 1" • aisle • on castors • service sticker on front

USE FOR: RESERVED – A3 / extreme cases only. Tell Joe first; log date, job and pages.

SAFE USE

- The fuser inside is HOT – never touch it; let it cool before clearing a deep jam.
- Feed A3 flat, never folded; right tray and paper size.
- Not on the small UPS. Vents clear; nothing on top; no liquids.
- Correct toner cartridge only.
- Heavy, on castors – do not move it alone.

Claude chat: "_____"

Serial: _____ **Technician:** _____

Keep on power + USB • Fault: lower shelf of the Boys' showcase + note, tell Joe

D – Epson photo printer

Grony 2 • top of the white shelf, beside the UPS

USE FOR: Colour and photo prints (owner to confirm paper sizes).

SAFE USE

- Switch off with the power button – leave it plugged in and on USB.
- Use the correct ink only; wipe spills at once.
- No notes or papers on the lid; remove memory cards after use.
- Shares a shelf with F and G – keep vents uncovered.

Claude chat: "_____"

Serial: _____ **Technician:** _____

Keep on power + USB • Fault: lower shelf of the Boys' showcase + note, tell Joe

E – HP Color LaserJet Managed flow MFP M880m

"HP COLOUR 2" • aisle

USE FOR: RESERVED – A3 / extreme cases only. Tell Joe first; log date, job and pages.

SAFE USE

- The fuser inside is HOT – never touch it; let it cool before clearing a deep jam.
- Feed A3 flat, never folded; right tray and paper size.
- Not on the small UPS. Vents clear; nothing on top; no liquids.
- Correct toner cartridge only.
- Heavy – do not move it alone.

Claude chat: "_____"

Serial: _____ **Technician:** _____

Keep on power + USB • Fault: lower shelf of the Boys' showcase + note, tell Joe

F – Epson (cream) with external ink tank

Grony 2 • middle shelf

USE FOR: Colour and photo prints (owner to confirm paper sizes).

SAFE USE

- External ink tank stays upright, in a tray, away from the UPS and sockets.
- Never pull or kink the ink tubes – do not move this printer without telling Joe.
- Wipe ink spills at once; keep ink bottles closed.
- Switch off with the power button – leave it plugged in and on USB.

Claude chat: "_____"

Serial: _____ **Technician:** _____

Keep on power + USB • Fault: lower shelf of the Boys' showcase + note, tell Joe

G – Epson EcoTank L8050

Grony 2 • bottom shelf • A4 photo, 6 colours • Wi-Fi + USB

USE FOR: Photos, passport photos and photo prints (4×6, 5×7, A4).

SAFE USE

- Photo paper: print side up, one sheet at a time; let prints dry before touching.
- Switch off with the power button – leave it plugged in and on USB.
- Refill only the matching colour; bottles upright; fill to the upper line; wipe spills at once.
- Keep it level – never tilt it or carry it with ink in the tanks.
- No food or drink; keep vents and top clear.

Claude chat: "_____"

Serial: _____ **Technician:** _____

Keep on power + USB • Fault: lower shelf of the Boys' showcase + note, tell Joe

? – HP black-and-white MFP

Grony 2 desk • letter to confirm

USE FOR: Black-and-white copies and documents (many pages).

SAFE USE

- The fuser inside is HOT – let it cool before clearing a deep jam; clear jams gently.
- No staples or paper clips in the document feeder.
- Do not plug it into the small UPS. Keep vents clear; nothing on top; no liquids.

Claude chat: "_____"

Serial: _____ **Technician:** _____

Keep on power + USB • Fault: lower shelf of the Boys' showcase + note, tell Joe

– Laminator

Grony 2 • top of the white shelf

USE FOR: Laminating documents and ID cards in pouches (A4 / A3).

SAFE USE

- The rollers are HOT – never touch them or push metal inside.
- Switch ON, set the heater and wait for the ready light before feeding.
- Feed the sealed edge first; never force a jam – switch off and let it cool.
- Switch OFF and unplug at closing; keep paper, plastic and the bin away from it.

Claude chat: "_____"

Serial: _____ **Technician:** _____

Off and unplugged at closing • Fault: lower shelf of the Boys' showcase, tell Joe

GRONY 3

Work area in the inner shop • staff only • GM app: a laptop and "HP M880 PRINTER 1"

GRONY 3 – DAILY STATION CHECKS

Owner to confirm what else is here – send photos.

152. Customers kept out – staff only; floor clear; no cable across the path. ☐

153. The laptop and the printer here work; every printer has its letter sticker, driver, Claude chat and information sticker (printers table, page 3). ☐

154. Routers, modems, pen drives and memory cards not in use are kept here (or in the showcase) – counted, never left out. ☐

GRONY 4

Storage and work area • staff only • GM app: a laptop / PC

GRONY 4 – DAILY STATION CHECKS

Owner to confirm what else is here – send photos.

155. The **path through Grony 4 is always clear**. ☐

156. All goods for storage are on the **Grony 4 shelf** – none on the floor. ☐

157. The holes in the Grony 4 floor and at the top of the gate are sealed (Chief Mason, section I). ☐

158. Routers, modems, pen drives and memory cards not in use are kept here (or in the showcase) after use. ☐

159. The laptop / PC works; any printer here has its letter sticker, driver, Claude chat and information sticker. ☐

GRONY 5

Large format • XP600-head printer • comb binder • Dell PC + UPS

Seen in photos: *large-format printer, comb-binding machine, Dell PC and monitor with a UPS, Double A and Mambo paper, a wall of cables and chargers, a roll of paper towel, cartons and a cutting machine.*

GRONY 5 – DAILY STATION CHECKS

Standing up to come here is allowed; the assisting staff covers the counter.

160. Large-format printer is on and working; **test print** before a big job. ☐

161. Dell PC and monitor are on; the **UPS** is on and charging; no cable across the path. ☐

162. Comb-binding machine is clean and ready. ☐

163. Paper stock and the cable / charger wall are arranged in **like terms**; **no cartons or cloth on the work table**. (G5-1) ☐

164. Banners, stickers and finished jobs are handed over or put in the customer's envelope – never left on the floor. ☐

165. Ceiling plywood and the wiring above are dry and secure (mason and electrician). (ALL-1) ☐

166. The large-format printer has its letter, driver, Claude chat and information sticker (printers table, page 3). ☐

GRONY 5 – RED MARKERS

Fix, then tick.

167. G5-1 Open cartons and loose cloth on the work table. ☐

How: Store or arrange them; keep the table and walkway clear.

GRONY 6

Shop front • GM app: a light bulb

GRONY 6 – DAILY STATION CHECKS

Owner to confirm what else is here – send photos.

168. No banners hang here – the shop's front view must stay clear. ☐

169. The light bulb works; nothing blocks the gate or entrance (fire exit). ☐

GRONY 7 & 8

Open fronts: side alley (7) and compound (8) • customer benches

GRONY 7 & 8 – DAILY STATION CHECKS

No banners at Grony 7.

170. No banner hangs across the opening at Grony 7; plywood and boards leaning outside are stored away. (G7-1) ☐

171. Customer benches and chairs are neat and clean. ☐

172. The passport sample poster is in good condition; no other organisation's advert on our walls. (G8-1) ☐

GRONY 7 & 8 – RED MARKERS

Fix, then tick.

173. G7-1 Plywood leaning outside and a banner hanging across the opening. ☐

How: Store the plywood for the mason's job; take the banner down.

174. G8-1 Other organisations' posters on the compound wall beside Grony 8. ☐

How: Fine if the wall is not ours; none inside the shop.

SHOP-WIDE – RED MARKERS, PROJECTS & APPS

SHOP-WIDE RED MARKERS

Problems that are not tied to one station.

175. ALL-1 Ceiling plywood water-stained (Grony 1, 5) with wiring and the CCTV above it. ☐

How: Mason fixes the leak and replaces panels; electrician checks the wiring is dry and secured.

176. ALL-2 Handwritten notes and loose papers on printer lids. ☐

How: Paste notes on a label board; keep lids and tops clear.

177. ALL-3 Two HP M880m printers (C and E), each also taped "HP COLOUR 1/2". ☐

How: Owner confirms which one is reserved; one sticker per printer.

I. SHOP WORKS – CHIEF MASON

One-off. When done, write it in the Done Log (page 3).

178. Signboard fixed; banner mounted in it with **GRONY MULTIMEDIA** in bold. ☐

179. Ceiling plywood changed; Grony 2 plywood raised to the top. ☐

180. Holes sealed with mortar: Grony 4 floor and top of the gate; all floor holes cemented/patched. ☐

J. POWER, SECURITY & FIRE

181. Fire alarm installed and tested; extinguisher placed within easy reach. ☐

182. Fire Service **192** and Joe's number posted where everyone can see. ☐

183. ECG meter change completed in Grony's number. ☐

184. CCTV app installed on Joe's phone and tested. ☐

K. EQUIPMENT & PRINTERS

185. Epson EcoTank L8050 and all other faulty printers repaired; Nesco repairs done. ☐

186. Bought: XLR pins, soldering iron, LEDs, screws, small syringes (ink). ☐

187. Owner's MTN SIM card sorted. ☐

188. Wireless printing set up on the company phone (both EcoTanks). ☐

189. Every printer has a **letter sticker** and is renamed with that letter on both computers. ☐

190. Every printer has an **information sticker**; snapshot sent to the owner. ☐

How: Letter, make/model, serial no., station, USB/Wi-Fi + IP, ink/toner numbers, paper sizes, date bought, supplier, technician & phone, last service, faults, special rule (e.g. M880 reserved). Photo of sticker + whole printer → owner.

191. Every printer has its correct **driver installed** on the Grony 1 and Grony 2 computers. ☐

How: Open that printer's Claude chat, follow its driver and set-up steps, then print a test page from the right letter.

192. Every printer has its own **Claude chat** (instructions + drivers). **Flag any printer without one** to the owner. ☐

How: Write the chat name in the printers table (page 3); no chat: tick FLAG and tell the owner.

193. Every printer and device has an **information sticker** with safe-use rules (Grony 2's are in its Grony 2 section). ☐

How: Print, cut, fill in serial no., chat name and technician, stick where it can be read.

194. Printer names in the **GM app** match the letters and each has a location (the app has "HP 880 A3 PRINTER B" at Grony 2 and "HP M880 PRINTER 1" at Grony 3). ☐

How: GM app → Properties → rename to the letter and model, set the location.

195. printers table (page 3) completed; HP A3 printer's correct toner identified and stocked; all printers listed in the GM app. ☐

196. Permanent markers at Grony 1 & 2; printer covers washed. ☐

L. DISPLAY & ARRANGEMENT

197. 32-inch TV mounted, playing the company advert (made with Claude Design) non-stop. ☐

198. Hanging items on the Boys' showcase last shelf; lower shelf kept for faulty items. ☐

199. Remaining boards pasted on walls; goods on ceiling arranged and fastened; all goods in like terms. ☐

200. Banners removed from Grony 6 & 7; sticker labels pasted at Grony 1 & 2. ☐

201. Every service has its own design displayed; trending services near customer seats. ☐

202. Printed list of items with selling price and count. ☐

203. Pen on a rope set up on the customers' table at Grony 2 so customers can write; rope secure. ☐

How: Tie the pen to the table edge with a short rope; replace the pen when it dries.

204. QR code of the company number for sending files and MoMo (Joe). ☐

205. New **company-number sticker with WhatsApp QR** printed, laminated and fixed on the back of the Grony 2 monitor (below the vents), with copies at Grony 1 and the counter. ☐

How: File: Grony_Company_Number_Sticker.pdf. Print at 100%, cut on the dashed lines, laminate, tape all four edges. Scan the QR to test.

M. SYSTEMS & CUSTOMER REGISTRATION

206. Registration form live at app.gronymultimedia.com/register (Claude Code: CLAUDE_CODE_PROMPT.md) and tested. ☐

207. Greeting message saved – only after the form is live. ☐

How: Message = intro + services + registration link + website, Facebook, TikTok, professional email, phone & hours. WhatsApp Business → Business tools → Greeting message → paste → Recipients: Everyone → Save.

208. Quick reply **/jingle** saved with the jingle audio. ☐

How: Business tools → Quick replies → + → shortcut /jingle → attach audio → Save.

209. Existing customer folders **and WhatsApp contacts** renamed to the new GM format (GM24, not GM0024). ☐

How: One-time: rename each "GM0024 – Name" contact and folder to "GM24 – Name". Numbers have no leading zeros.

210. Each staff member has their own Chrome profile. ☐

211. AnyDesk on Grony 1 & 2; address sent to owner. ☐

How: anydesk.com → install → send the address. Accept only when the owner has called first.

212. Fast-pace processes written and pasted at the stations; this checklist printed and posted. ☐

N. FACEBOOK PAGE & META BUSINESS SUITE

213. Retry renaming Grony TV → **Grony Multimedia** (first try failed). ☐

How: Page → Settings → Page setup → Name. If refused: wait 7 days, post a few times, then retry; or request via Meta Business Suite → Settings → Business assets.

214. Logo, cover photo, shop address, company number, WhatsApp button and @username set. ☐

215. Joe given **full control** as backup. ☐

How: Owner's phone: Page profile → Settings → Page setup → Page access → Add new → Joe → turn on full control → Give access → Joe accepts.

216. Meta Business Suite on the company phone, logged in as Joe. ☐

How: Play Store → Meta Business Suite → log in with Joe's Facebook → choose the Page → allow notifications.

217. Staff who post have **task access** only (content + messages). Staff who prefer not to use their own Facebook post from the company phone; sharing a Page post needs no access. ☐

218. Friends invited by owner and staff; Page link and QR at the counter. ☐

O. TRAINING

219. Joe shown how to sell the 6ft material. ☐

220. Advertisement tutorial: recording, CapCut, posting, sharing. ☐

221. Every staff member taken through this checklist, the extinguisher and the alarm test. ☐

222. Claude tutorials written and given; clock-in, Live Sale and COUNT NOW shown. ☐

P. ADVERTS

223. Services advert recorded: photocopy, printing, passport photos, large format, posters, banners, stickers. ☐

224. New **jingle** made, played at the roadside and saved as /jingle. ☐

225. Domain-change & website-creation advert recorded; website & app development jingle made. ☐

226. Video Recording Plan followed: arrange goods → film display → one item at a time → ongoing work → ask permission → interview customers. ☐

227. Video advert made from the Video folder clips with Claude (Joe); TV advert loaded. ☐

Q. BUSINESS EXPANSION

228. DTF machine: current price and profitability enquired. ☐

229. Price list for all goods and services created and given to staff. ☐

STRATEGIES – FEWER THE MERRIER

1. _____
2. _____

STRATEGIES – FAST WORK ON ALL SERVICES

1. _____
2. _____

R. APPROVED APPS – COMPANY PHONE

Only these. Remove anything else.

230. Claude • WhatsApp Business • Epson Smart Panel (both EcoTanks) ☐
