GRONY MULTIMEDIA – MASTER CHECKLIST

Assin Foso • Every line is a check: tick the box when done • Fix it or report it to Joe • Not for customers' view

Date: _____ Checked by: _____

CONTENTS **Daily** A–E (B2 = customer trust) p1–2 • **Weekly & set days** F p2 • **Monthly/yearly sync** G p2 • **Know & apply** H p2 • **RED MARKERS (fix first)** p2 • **One-off setup & projects** I–Q p2–3 • **Approved apps** R–S p3 • **Location chart, Printer register, Done log** p4 • **Shop layout** p5.
Goal: Grony 1 and Grony 2 each run as a **standalone printing press** – only large format means leaving your station.

A. OPENING – every day

Before the first customer.

1. Clocked in with the GM app, location ON. ☐
   How: Manage → Team Times → Clock in (first in = Opener). Breaks: Take a Break / End Break. Manual entry only if unable – with reason, max 5 a month. Absent or late? Post on the app announcement first.
2. Floor mopped; printers, tables and showcases dusted with rag and brush. ☐
3. UPS ON, charging and connected to the Epson EcoTanks. ☐
4. Every printer on **power and USB** to its computer – even unused ones. ☐
5. Every printer's **letter sticker** matches its name on screen. ☐
   How: Settings → Printers & scanners → printer → Printer properties → General → name it exactly as on the Grony 2 sheet (p4), e.g. "B - Epson ET-2860" (letter first, plain hyphen) → print a test page. Nothing in the queue; admin account. Same names on Grony 1 & 2.
6. Every printer tested. Faults reported. ☐
   How: Faulty item → lower shelf of Boys' showcase with a note (item, fault, date, name) → tell Joe same day → Joe informs the owner and arranges repair.
7. Company phone charged and with **Joe**; on shop Wi-Fi with both EcoTanks. ☐
   How: Epson Smart Panel → add printer → select each EcoTank. To print: file → Share/Print → EcoTank.
8. WhatsApp Business working; owner's UK devices still linked. ☐
   How: Menu (3 dots) → Linked devices. Never tap Log out on the owner's devices.
9. My phone charging **only** at the back; bags, food and water kept at the back. ☐
10. Laptop wallpapers solid black; I'm in **my own Chrome profile** – company account only. **No personal email signed in on any browser.** ☐
    How: Chrome profile icon → Add → Continue without an account → staff name.
11. Anyone who **phoned about an appointment** is called back as soon as I reach the shop – never forgotten; that is customer dignity. ☐
12. 32-inch TV on, company advert on repeat; jingle played at the roadside. ☐
13. **Joe:** CCTV app checked – every camera showing. ☐
14. Fire: extinguisher in place, unblocked, gauge in the green; gate and exits clear. ☐

B. DURING THE DAY – all day, not once

15. No eating or drinking at the front panel; no food, water or bags on front tables. ☐
16. Customers kept out of the inner shop (staff only) – politely asked to step outside. ☐
17. Seated, standing only for passport photos or large format; assistant routes customers and passes items. ☐
18. Every new customer registered with a **GM number**. ☐
    How: Greeting message sends app.gronymultimedia.com/register automatically. If missed, send the link or add them in the app → New Customer.
19. Each customer's files **only** in a folder named with their GM number; WhatsApp contact saved as "GM24 – Full Name". ☐
20. Customer details and logins kept private – never shared or reused. ☐
21. **Every customer is taken seriously** – greeted, listened to, order written down, a time given – above all anyone who has **walked in to request work**. ☐
22. **Complaints logged:** every customer complaint and every case of staff incompetence is written on the complaint log on the **left of the glass showcase**, with date and details. ☐
23. Every message answered within **1 hour**; prices quoted only from the price list. ☐
24. Names, dates and index numbers proofread before printing. Many files or copies: check the **quality and size of the first printout** before printing the rest. ☐
25. Right Claude chat used for each job – an hour's work done in minutes. ☐
26. Only approved apps used (R–S); nothing new installed. ☐
27. Other printers used; **HP M880 reserved** – extreme cases only. ☐
    How: Try every other printer first → tell Joe → log date, job, pages → leave it on standby, plugged in, on USB.
28. Every walk-in sale in **Live Sale** with **WIC** on (GMC only for the shop's own use). ☐
    How: Item → type Qty (change Price only if this sale differs) → green tick. All walk-in sales go on one combined daily receipt. Mistake? Undo straight away and re-enter.
29. Every bill: receipt attached (demand it from vendors), vendor name, full list of goods adding up to the total, canonical item names. Cuttings recorded as expenses. ☐
30. Every sellable item is on the item list; count exclusions entered as numbers – **blue** = safe, **red** = flag. ☐
31. **COUNT NOW** items counted; warning banners cleared. ☐
    How: Tap item → count the shelf → submit. Missing SP/CP/group → Edit → Save. Negative stock → look for an unentered bill. Net gain → check count history for a miscount, unrecorded receipt or duplicate.
32. Pen drives, memory cards, routers back in the showcase or Grony 3/4 straight after use. ☐
33. Any setting or location I might forget is labelled; any new success procedure written down. ☐
34. Goods in **like terms** (same type, same side, label out); old goods in front, new behind; none on the floor. ☐
35. Grony 4 path clear; storage goods on the Grony 4 shelf; hanging items on the last shelf of the Boys' showcase; ceiling goods fastened. ☐
36. **No banners at Grony 6 & 7**; no other company's logo, design or advert displayed anywhere. ☐
37. **No cable lies across any path or walkway** (extension-board wires may pass under printers); no extension board plugged into another; cables checked. ☐
38. No smoking or naked flame; ink and paper away from heat. ☐
39. **Power cut:** UPS **off** when there is no work, **on** only when needed; the moment power returns it goes back on charge – it must always be kept charging. ☐

B2. CUSTOMER TRUST – COMPANY CHANNELS ONLY

The company number is also the Mobile Money number.

40. The customer's **WhatsApp chat is the source of truth**: reply there, send receipts there, put every conversation about their work and every payment there. ☐
    How: Rename the contact to their company code: "GM24 – Full Name".
41. Customer not sending work on WhatsApp? Ask them to send "**hi**" to the company number, then **save the contact** with their GM number. ☐
42. **Work goes only through official company channels** – the company number, email address and website – never to personal numbers or personal WhatsApp lines. ☐
43. **No personal phone number** – mine or any staff member's – is given to any customer. ☐
44. **No personal Mobile Money number** is given to customers; they pay to the company MoMo number. ☐

B3. SALES, CUSTOMERS & RECEIPTS – LIVE SALE

Every sale tied to its customer. Full steps: one-page staff guide (Grony_Staff_Guide_Sales_and_Customers).

45. Every sale to a known customer carries their **GM number or 10-digit phone** in the GM box. ☐
    How: GM box on the item card: type the number (e.g. 45), a phone starting with 0, or the first letters of the name and pick from the list → green tick. No customer? Leave it empty.
46. A phone number not on our list is **saved as a new customer**. ☐
    How: Type the name in the box that drops down. For email, location and services use Full registration. Tell the customer their GM number.
47. After each sale with a customer the **WhatsApp purchase message** is sent. ☐
    How: Tap Send on the card that appears, then press send in WhatsApp. It shows what they bought, the total and their total work with us.
48. A customer buying **several items** is sold through **MI**: one basket, one receipt. ☐
    How: Press MI → add each item (green tick, or type its name in the basket) → type the customer → press the big green button → Print or Send.
49. **Past days** are entered only with **+ Past sale** and the right Sale date; the same work is never typed twice. ☐
    How: Sales Log → + Past sale → pick the date → items → customer → green button.
50. Sales Log checked: every row shows its customer; missing ones added. ☐
    How: A faint plus sign in the Customer column = none recorded: tap it and add the GM number, phone or name. Tap a customer's name to issue the day's receipt or see all their jobs.
51. Receipts are issued from MI or the Sales Log, never typed into Customer Receipts. ☐
    How: Cust. Receipts is for history, search and printing only.
52. A sale the app refuses (price below cost, not enough stock) is **not forced**: tell Joe. ☐

C. STATION CHECK – left box Grony 1, right box Grony 2

Each station must run standalone.

53. Laptop, printers and scanner working and clean. ☐ ☐
54. **BIN**: rubbish and unusable paper only; official documents torn into pieces first. ☐ ☐
55. **WASTE PAPERS**: spoilt or unused prints only. ☐ ☐
56. **PRINTING PAPERS** stocked and clean: A4, 4×6, 5×7. ☐ ☐
57. A3 sheets flat – **never folded**. ☐ ☐
58. Permanent marker present; chargers wrapped with 2–3 rubber bands. ☐ ☐
59. Everything for printing within reach; anything missing reported. ☐ ☐
60. Showcase list complete (per its sticker): cellotapes, brown envelopes, polythene bags, stapler, staple pins, cuttings, online forms, scissors, passport cutter, passport envelopes – small items inside brown envelopes. ☐ ☐

Grey "How:" notes = the procedure. Rules not ticked are still rules. Send shop photos monthly so this checklist stays in sync.

GRONY MULTIMEDIA – MASTER CHECKLIST

Assin Foso • Every line is a check: tick the box when done • Fix it or report it to Joe • Not for customers' view

Date: _____ Checked by: _____

D. SOCIAL MEDIA – every day

61. At least **1 video clip** recorded and saved in the Drive Video folder. ☐
How: Phone upright on tripod, facing the light, 10–30 s, result in first 3 s, clip-on mic if speaking. Film work, large format, neat goods, customers (with permission).

62. Posted: TikTok → Facebook Reel → WhatsApp Status & group. ☐
How: CapCut → Template → add clips → Auto captions → end text with the company number (on the monitor sticker) → Export.

63. At least **1 service design photo advert** posted on WhatsApp (from Drive or the app's Photo Advert section). ☐

64. Ideas tried: banner printing out, before/after typing, customer collecting (with permission), admission reminders, stickers being applied. ☐

65. Company phone posted updates to the **WhatsApp group/Channel**; captions and replies drafted in the phone's own Claude chat. ☐

66. Shared by every staff member on personal pages. ☐
How: Facebook: Share → Feed, then Share → Story. TikTok: Share → Repost.

67. No customer face, CV or document posted without permission. ☐

68. Comments and messages on Facebook, TikTok and WhatsApp answered. ☐

69. Social media lead confirmed posting and replies done; more posts in busy seasons (WASSCE, admissions, reopening, church & funeral events). ☐

70. Company passwords, emails and recovery details left unchanged. ☐

71. My personal Facebook workplace is set to Grony Multimedia and the company TikTok handle is in my bio (once). ☐

E. CLOSING – every day

Before locking up.

72. Desktop, Documents and Downloads empty on both laptops. ☐
How: Customer files → GM folders; everything else → delete; empty Recycle Bin.

73. Pen drives, cards, routers and modems stored in the showcase or Grony 3/4. ☐

74. Tables decluttered; everything back in its labelled place. ☐

75. All sales, bills and expenses of the day recorded in the **GM app**. ☐

76. Laminator switched off, unplugged and cooled; bin emptied; WASTE PAPERS sorted – full documents torn into the BIN. ☐
How: Waste-paper slot is for test prints only. Customer or official documents: tear into pieces, then BIN.

77. Laptops shut down; TV off; printers off at their button but **still plugged in and on USB**; UPS charging. ☐

78. Sockets not overloaded; gate area clear; locked up. ☐

79. Clocked out; the Closer answered the closing questions in the app. ☐

F. WEEKLY & SET DAYS

80. WEDNESDAY: fire alarm tested. ☐
How: Tell everyone → hold the test button until loud → no sound: new battery, retest → still faulty: report to Joe.

81. WEDNESDAY: item groups checked – every good in the right group. ☐

82. SATURDAY: CAB officer confirmed cash at bank in the app. ☐

83. Week's clips edited in CapCut and scheduled (Meta Business Suite → Planner). ☐

84. Printer covers washed. ☐

85. Phone and both computers have **only approved apps**. ☐
How: Phone: Settings → Apps → Uninstall. PC: Settings → Apps → Installed apps → 3 dots → Uninstall. Unsure? Ask Joe.

86. TV advert updated with new work or offers. ☐

87. At least **5 new customers** registered and **5 added** to the WhatsApp group; bulk message sent about new products. ☐

88. CCTV recording; owner's devices still linked. ☐

89. Windows USB is present and in its place (always keep one). ☐

90. WhatsApp check-in with the owner: posts, enquiries, faults, stock needed. ☐

91. Sound card & mic used only for jingles, voiceovers and info-centre adverts – recorded in batches, saved to Drive. ☐

G. MONTHLY & YEARLY SYNC

Write the date beside each tick.

92. General staff meeting held; next date known a week ahead. ☐

93. Shop photos with descriptions sent to the owner. ☐
How: Front & signboard, Grony 1–7, large format, inner shop, both showcases, charging point. For each: area – what's there – what changed – any problem. Owner gives them to Claude to update this checklist and the layout.

94. Printer drivers still work (test page from each printer); each printer's Claude chat and information sticker still in place. ☐
How: A printer that fails a test page: open its Claude chat and re-follow the driver steps.

95. Location chart and Printer Register (p5) correct; printer stickers updated and snapshots sent. ☐

96. Checklist posted at vantage points; sticker labels intact. ☐

97. Price list current and with all staff. ☐

98. Greeting message and registration link work (test from another phone). ☐

99. Facebook Page roles and Chrome profiles match current staff; leavers removed the same day. ☐

100. AnyDesk works; signboard and banner in good condition; M880 log reviewed. ☐

101. Every repair needed is listed as a task in the GM app with a deadline. ☐

102. YEARLY (and after any use): fire extinguisher serviced or refilled. ☐

H. KNOW & APPLY – tick once you can do it

103. I can use the extinguisher: **Pull, Aim, Squeeze, Sweep**; switch off at the mains if safe; never water on electrical fires; small fire only with a clear exit, else everyone out and call **192**. ☐

104. Two laptop setups serve every customer – speed comes from sharper skills. ☐

105. I report problems early – a small fault today saves a big cost tomorrow. ☐

106. I keep this checklist out of customers' view. Not knowing is no excuse. ☐

107. I know the app words: **SOH** stock on hand • **SP** selling price • **CP** cost price • **WIC** walk-in customer • **GMC** Grony Multimedia as customer • **CAB** cash at bank. I search the app's Handbook before asking. ☐

108. I can design a poster or flyer with Claude. ☐
How: claude.ai → Settings → Connectors → Canva (shop account only) → new chat: purpose, exact text, size, "make it in Canva" → review and correct → download/print → save to Drive → display if it is a service design.

RED MARKERS – FIX FIRST

Problems seen in the shop photos. Tag = station (G2 = Grony 2). Fix, then tick. Send new photos and more markers get added.

109. G2-1 Extension boards and cables on the floor by printers C, E and the shelf units. ☐
How: One board per station, fixed off the floor, plugged straight into the wall. No board into another board. Cables bundled off the walkway.

110. G2-2 Wall socket on the wooden unit with cables dangling right above the stationery. ☐
How: Electrician secures socket and cables; keep paper and tapes away from it.

111. G2-3 External ink tank (CISS) and tubes loose beside the UPS. ☐
How: Stand tanks in a tray away from the UPS; secure the tubes; wipe any spill.

112. G2-4 Hot laminator on the shelf directly above the bin. ☐
How: Off and unplugged at closing; cool before leaving; keep paper and bin away from it.

113. G2-5 Bin is an open cardboard box of plastic and paper, with a second box under it. ☐
How: Proper lidded bin; emptied daily at closing.

114. G2-6 WASTE PAPERS slot overflowing, with full printed documents inside. ☐
How: Empty daily; tear documents into the BIN; test prints only.

115. G2-7 PRINTING PAPERS slot: ream torn open, wrapper crumpled, sheets spilling. ☐
How: Keep the ream in its wrapper, upright and flat.

116. G2-8 CUSTOMERS' WORK slot: prints and posters stuffed in loose. ☐
How: Each job in an envelope marked with GM number and name; collected jobs removed daily; never fold A3.

117. G2-9 Printers D, F and G stacked on one thin shelf. ☐
How: Keep vents uncovered and tops clear; check the shelf takes the weight.

118. G2-10 Glass showcase: stock mixed with loose tools and wires; protective film still on the glass. ☐
How: Sort stock by type; tools into a toolbox; peel the film off.

119. G2-11 Showcase sticker lists work items, but they sit on the wooden unit. ☐
How: Move the sticker to the unit, or the items into the showcase.

120. G2-12 Faded tape labels and torn sticker residue on the HP printers. ☐
How: Clean off; one permanent info sticker per printer (letter, model, rule).

121. G2-13 Paper company-number sticker taped across the top vent slots of the Philips monitor. ☐
How: Fix the new sticker on the flat back panel below the vents; tape all four edges; keep vents clear.

122. G1-1 Cables across the floor under the desk; papers piled on the desk and printers. ☐
How: Bundle cables off the floor; clear the desk daily.

123. G5-1 Open cartons and loose cloth on the work table. ☐
How: Store or arrange them; keep the table and walkway clear.

124. G7-1 Plywood leaning outside and a banner hanging across the opening. ☐
How: Store the plywood for the mason's job; take the banner down.

125. G8-1 Other organisations' posters on the compound wall beside Grony 8. ☐
How: Fine if the wall is not ours; none inside the shop.

126. ALL-1 Ceiling plywood water-stained (Grony 1, 5) with wiring and the CCTV above it. ☐
How: Mason fixes the leak and replaces panels; electrician checks the wiring is dry and secured.

127. ALL-2 Handwritten notes and loose papers on printer lids. ☐
How: Paste notes on a label board; keep lids and tops clear.

128. ALL-3 Two HP M880m printers (C and E), each also taped "HP COLOUR 1/2". ☐
How: Owner confirms which one is reserved; one sticker per printer.

GRONY MULTIMEDIA – MASTER CHECKLIST

Assin Foso • Every line is a check: tick the box when done • Fix it or report it to Joe • Not for customers' view

Date: _____ Checked by: _____

I. SHOP WORKS – CHIEF MASON

One-off. When done, write it in the Done Log (p5).

- ☐ **129.** Signboard fixed; banner mounted in it with **GRONY MULTIMEDIA** in bold.
- ☐ **130.** Ceiling plywood changed; Grony 2 plywood raised to the top.
- ☐ **131.** Holes sealed with mortar: Grony 4 floor and top of the gate; all floor holes cemented/patched.

J. POWER, SECURITY & FIRE

- ☐ **132.** Fire alarm installed and tested; extinguisher placed within easy reach.
- ☐ **133.** Fire Service **192** and Joe's number posted where everyone can see.
- ☐ **134.** ECG meter change completed in Grony's number.
- ☐ **135.** CCTV app installed on Joe's phone and tested.

K. EQUIPMENT & PRINTERS

- ☐ **136.** Epson EcoTank L8050 and all other faulty printers repaired; Nesco repairs done.
- ☐ **137.** Bought: XLR pins, soldering iron, LEDs, screws, small syringes (ink).
- ☐ **138.** Owner's MTN SIM card sorted.
- ☐ **139.** Wireless printing set up on the company phone (both EcoTanks).
- ☐ **140.** Every printer has a **letter sticker** and is renamed with that letter on both computers.
- ☐ **141.** Every printer has an **information sticker**; snapshot sent to the owner.
  How: Letter, make/model, serial no., station, USB/Wi-Fi + IP, ink/toner numbers, paper sizes, date bought, supplier, technician & phone, last service, faults, special rule (e.g. M880 reserved). Photo of sticker + whole printer → owner.
- ☐ **142.** Every printer has its correct **driver installed** on the Grony 1 and Grony 2 computers.
  How: Open that printer's Claude chat, follow its driver and set-up steps, then print a test page from the right letter.
- ☐ **143.** Every printer has its own **Claude chat** (instructions + drivers). **Flag any printer without one** to the owner.
  How: Write the chat name in the Printer Register (p4); no chat: tick FLAG and tell the owner.
- ☐ **144.** Every printer and device has an **information sticker** with safe-use rules (Grony 2's are on its station sheet, p5).
  How: Print, cut, fill in serial no., chat name and technician, stick where it can be read.
- ☐ **145.** Printer names in the **GM app** match the letters and each has a location (the app has "HP 880 A3 PRINTER B" at Grony 2 and "HP M880 PRINTER 1" at Grony 3).
  How: GM app → Properties → rename to the letter and model, set the location.
- ☐ **146.** Printer Register (p5) completed; HP A3 printer's correct toner identified and stocked; all printers listed in the GM app.
- ☐ **147.** Permanent markers at Grony 1 & 2; printer covers washed.

L. DISPLAY & ARRANGEMENT

- ☐ **148.** 32-inch TV mounted, playing the company advert (made with Claude Design) non-stop.
- ☐ **149.** Hanging items on the Boys' showcase last shelf; lower shelf kept for faulty items.
- ☐ **150.** Remaining boards pasted on walls; goods on ceiling arranged and fastened; all goods in like terms.
- ☐ **151.** Banners removed from Grony 6 & 7; sticker labels pasted at Grony 1 & 2.
- ☐ **152.** Every service has its own design displayed; trending services near customer seats.
- ☐ **153.** Printed list of items with selling price and count.
- ☐ **154. Pen on a rope** set up on the customers' table at Grony 2 so customers can write; rope secure.
  How: Tie the pen to the table edge with a short rope; replace the pen when it dries.
- ☐ **155.** QR code of the company number for sending files and MoMo (Joe).
- ☐ **156.** New **company-number sticker with WhatsApp QR** printed, laminated and fixed on the back of the Grony 2 monitor (below the vents), with copies at Grony 1 and the counter.
  How: File: Grony_Company_Number_Sticker.pdf. Print at 100%, cut on the dashed lines, laminate, tape all four edges. Scan the QR to test.

M. SYSTEMS & CUSTOMER REGISTRATION

- ☐ **157. Registration form live** at app.gronymultimedia.com/register (Claude Code: CLAUDE_CODE_PROMPT.md) and tested.
- ☐ **158.** Greeting message saved – only after the form is live.
  How: Message = intro + services + registration link + website, Facebook, TikTok, professional email, phone & hours. WhatsApp Business → Business tools → Greeting message → paste → Recipients: Everyone → Save.
- ☐ **159.** Quick reply **/jingle** saved with the jingle audio.
  How: Business tools → Quick replies → + → shortcut /jingle → attach audio → Save.
- ☐ **160.** Existing customer folders **and WhatsApp contacts** renamed to the new GM format (GM24, not GM0024).
  How: One-time: rename each "GM0024 – Name" contact and folder to "GM24 – Name". Numbers have no leading zeros.
- ☐ **161.** Each staff member has their own Chrome profile.
- ☐ **162.** AnyDesk on Grony 1 & 2; address sent to owner.
  How: anydesk.com → install → send the address. Accept only when the owner has called first.
- ☐ **163.** Fast-pace processes written and pasted at the stations; this checklist printed and posted.

N. FACEBOOK PAGE & META BUSINESS SUITE

- ☐ **164. Retry renaming** Grony TV → **Grony Multimedia** (first try failed).
  How: Page → Settings → Page setup → Name. If refused: wait 7 days, post a few times, then retry; or request via Meta Business Suite → Settings → Business assets.
- ☐ **165.** Logo, cover photo, shop address, company number, WhatsApp button and @username set.
- ☐ **166.** Joe given **full control** as backup.
  How: Owner's phone: Page profile → Settings → Page setup → Page access → Add new → Joe → turn on full control → Give access → Joe accepts.
- ☐ **167.** Meta Business Suite on the company phone, logged in as Joe.
  How: Play Store → Meta Business Suite → log in with Joe's Facebook → choose the Page → allow notifications.
- ☐ **168.** Staff who post have **task access** only (content + messages). Staff who prefer not to use their own Facebook post from the company phone; sharing a Page post needs no access.
- ☐ **169.** Friends invited by owner and staff; Page link and QR at the counter.

O. TRAINING

- ☐ **170.** Joe shown how to sell the 6ft material.
- ☐ **171.** Advertisement tutorial: recording, CapCut, posting, sharing.
- ☐ **172.** Every staff member taken through this checklist, the extinguisher and the alarm test.
- ☐ **173.** Claude tutorials written and given; clock-in, Live Sale and COUNT NOW shown.

P. ADVERTS

- ☐ **174.** Services advert recorded: photocopy, printing, passport photos, large format, posters, banners, stickers.
- ☐ **175.** New **jingle** made, played at the roadside and saved as /jingle.
- ☐ **176.** Domain-change & website-creation advert recorded; website & app development jingle made.
- ☐ **177.** Video Recording Plan followed: arrange goods → film display → one item at a time → ongoing work → ask permission → interview customers.
- ☐ **178.** Video advert made from the Video folder clips with Claude (Joe); TV advert loaded.

Q. BUSINESS EXPANSION

- ☐ **179.** DTF machine: current price and profitability enquired.
- ☐ **180.** Price list for all goods and services created and given to staff.

STRATEGIES – FEWER THE MERRIER

1. _____
2. _____

STRATEGIES – FAST WORK ON ALL SERVICES

1. _____
2. _____

R. APPROVED APPS – COMPANY PHONE

Only these. Remove anything else.

- ☐ **181.** Claude • WhatsApp Business • Epson Smart Panel (both EcoTanks)
- ☐ **182.** Microsoft Word/Office • Google Drive • Gmail (company)
- ☐ **183.** Facebook • Meta Business Suite • TikTok • YouTube + YouTube Studio
- ☐ **184.** CapCut • Google Maps (Business Profile)
- ☐ **185.** All other apps removed.

S. APPROVED APPS – GRONY 1 | GRONY 2

Left box Grony 1, right box Grony 2.

- ☐ ☐ **186.** Claude desktop • Microsoft Office (Word, Excel, PowerPoint)
- ☐ ☐ **187.** Chrome with a profile per staff member
- ☐ ☐ **188.** Adobe Acrobat Reader • 7-Zip • Google Drive for desktop
- ☐ ☐ **189.** Drivers for every printer at the station (from its Claude chat) + Epson Scan 2
- ☐ ☐ **190.** WhatsApp Business desktop (linked) • passport photo editor
- ☐ ☐ **191.** AnyDesk • Windows Security on and updated
- ☐ ☐ **192.** All other apps removed.

Grey "How:" notes = the procedure. Rules not ticked are still rules. Send shop photos monthly so this checklist stays in sync.

T. LOCATION CHART – write locations in pencil; tick when present; report anything missing

ITEM	GRONY 1	OK	GRONY 2	OK	ITEM	GRONY 1	OK	GRONY 2	OK
Laptop + charger					Stapler + pins			Showcase	
UPS					Passport covers			Showcase
