PRINT AND FIX

1. Print at 100% / Actual size (not 'fit to page'). Sticker paper is best; plain paper works with tape.
2. Cut along the dashed lines. If you can, laminate it with the shop laminator first.
3. Large sticker: back of the Grony 2 monitor, on the flat part BELOW the vent slots, facing customers.
4. Tape or stick all four edges. Never cover the monitor's vent slots.
5. Small copies: Grony 1 monitor, the counter, or spares.
6. Test the QR with a phone camera: it should open a WhatsApp chat with the company number.
