

GRONY 4

Storage and work area • staff only • GM app, a laptop / PC

GRONY 4 – DAILY STATION CHECKS

Owner to confirm what else is here – send photos.

147. The path through Grony 4 is always clear. ☐
148. All goods for storage are on the Grony 4 shelf – none on the floor. ☐
149. The holes in the Grony 4 floor and at the top of the gate are sealed (Chief Mason, section 1). ☐
150. Routers, modems, pen drives and memory cards not in use are kept here (or in the showcase) after use. ☐
151. The laptop / PC works; any printer here has its letter sticker, driver, Claude chat and information sticker. ☐

GRONY 5

Large format • XP600-head printer • comb binder • Dell PC • UPS

Seen in photos: large-format printer, comb-binding machine, Dell PC and monitor with a UPS, Double A and Mumbo paper, a wall of cables and chargers, a roll of paper towel, cartons and a cutting machine.

GRONY 5 – DAILY STATION CHECKS

Standing up to come here is allowed; the assisting staff covers the counter.

152. Large-format printer is on and working; test print before a big job. ☐
153. Dell PC and monitor are on; the UPS is on and charging; no cable across the path. ☐
154. Comb-binding machine is clean and ready. ☐
155. Paper stock and the cable (el) charger wall are arranged in like terms; no cartons or cloth on the work table. (G5-1) ☐
156. Banners, stickers and finished jobs are handed over or put in the customer's envelope – never left on the floor. ☐
157. Ceiling plywood and the wiring above are dry and secure (mason and electrician). (ALL-1) ☐
158. The large-format printer has its letter, driver, Claude chat and information sticker (printers table, page 3). ☐

GRONY 5 – RED MARKERS

Fix, then tag.

159. G5-1 Open cartons and loose cloth on the work table. ☐
- How: Store or arrange them; keep the table and walkway clear.

GRONY 6

Shop front • GM app, a light bulb

GRONY 6 – DAILY STATION CHECKS

Owner to confirm what else is here – send photos.

160. No banners hang here – the shop's front view must stay clear. ☐
161. The light bulb works; nothing blocks the gate or entrance (fire exit). ☐

GRONY 7 & 8

Open fronts: side alley (7) and compound (8) • customer benches

GRONY 7 & 8 – DAILY STATION CHECKS

No banners at Grony 7.

162. No banner hangs across the opening at Grony 7; plywood and boards leaning outside are stored away. (G7-1) ☐
163. Customer benches and chairs are neat and clean. ☐
164. The passport sample poster is in good condition; no other organisation's advert on our walls. (G8-1) ☐

GRONY 7 & 8 – RED MARKERS

Fix, then tag.

165. G7-1 Plywood leaning outside and a banner hanging across the opening. ☐
- How: Store the plywood for the mason's job; take the banner down.
166. G8-1 Other organisations' posters on the compound wall beside Grony 8. ☐
- How: Fire if the wall is not ours; none inside the shop.

SHOP-WIDE – RED MARKERS, PROJECTS & APPS

SHOP-WIDE RED MARKERS

- Problems that are not tied to one station.
167. ALL-1 Ceiling plywood water-stained (Grony 1, 5) with wiring and the CCTV above it. ☐
- How: Mason fixes the leak and replaces panels; electrician checks the wiring is dry and secured.
168. ALL-2 Handwritten notes and loose papers on printer lids. ☐
- How: Basic notes on a label board keep lids neat and tidy.
169. ALL-3 Two HP M880m printers (C and E), each also taped "HP COLOUR 1/2". ☐
- How: Owner confirms which one is reserved; one sticker per printer.

I. SHOP WORKS – CHIEF MASON

- One-off. When done, write it in the Done Log (page 3).
170. Signboard fixed; banner mounted in it with GRONY MULTIMEDIA in bold. ☐
171. Ceiling plywood changed; Grony 2 plywood raised to the top. ☐
172. Holes sealed with mortar: Grony 4 floor and top of the gate; all floor holes cemented/patched. ☐

J. POWER, SECURITY & FIRE

173. Fire alarm installed and tested; extinguisher placed within easy reach. ☐
174. Fire Service 192 and Joe's number posted where everyone can see. ☐
175. ECG meter change completed in Grony's number. ☐
176. CCTV app installed on Joe's phone and tested. ☐

K. EQUIPMENT & PRINTERS

177. Epson EcoTank L8050 and all other faulty printers repaired; Nesco repairs done. ☐
178. Bought: XLR pins, soldering iron, LEDs, screws, small syringes (ink). ☐
179. Owner's MTN SIM card sorted. ☐
180. Wireless printing set up on the company phone (both EcoTanks). ☐
181. Every printer has a letter sticker and is renamed with that letter on both computers. ☐
182. Every printer has an information sticker; snapshot sent to the owner. ☐
- How: Label, make/make/model, serial no., serial, USB/Wi-Fi • IP, ink/toner numbers, paper sizes, date bought, supplier, technician & phone, last service, faults, special rule (e.g. M880 reserved). Photo of sticker + whole printer → owner.
183. Every printer has its correct driver installed on the Grony 1 and Grony 2 computers. ☐
- How: Open that printer's Claude chat, follow its driver and set-up steps, then print a test page from the right letter.
184. Every printer has its own Claude chat (instructions + drivers). Flag any printer without one to the owner. ☐
- How: Write the chat name in the printers table (page 3); no chat: tick FLAG and tell the owner.
185. Every printer and device has an information sticker with safe-use rules (Grony 2s are in its Grony 2 section). ☐
- How: Print, cut, fill in serial no., chat name and technician, stick where it can be read.
186. Printer names in the GM app match the letters and each has a location (the app has "HP B80 A3 PRINTER B" at Grony 2 and "HP M880 PRINTER 1" at Grony 3). ☐
- How: GM app → Properties → rename to the letter and model, set the location.
187. printers table (page 3) completed; HP A3 printer's correct toner identified and stocked; all printers listed in the GM app. ☐
188. Permanent markers at Grony 1 & 2; printer covers washed. ☐

L. DISPLAY & ARRANGEMENT

189. 32-inch TV mounted, playing the company advert (made with Claude Design) non-stop. ☐
190. Hanging items on the Boys' showcase last shelf; lower shelf kept for faulty items. ☐
191. Remaining boards pasted on walls; goods on ceiling arranged and fastened; all goods in like terms. ☐
192. Banners removed from Grony 6 & 7; sticker labels pasted at Grony 1 & 2. ☐
193. Every service has its own design displayed; trending services near customer seats. ☐
194. Printed list of items with selling price and count. ☐
195. Pen on a rope set up on the customers' table at Grony 2 so customers can write; rope secure. ☐
- How: Tie the pen to the table edge with a short rope; replace the pen when it dips.
196. QR code of the company number for sending files and Momo (Joe). ☐
197. New company-number sticker with WhatsApp QR printed, laminated and fixed on the back of the Grony 2 monitor (below the vents), with copies at Grony 1 and the counter. ☐
- How: File: Grony, Company, Number, Sticker.pdf. Print at 100%, cut on the dashed lines, laminate, tape all four edges. Scan the QR to test.

M. SYSTEMS & CUSTOMER REGISTRATION

198. Registration form live at app.gronymultimedia.com/register (Claude Code: CLAUDE_CODE_PROMPT.md) and tested. ☐
199. Greeting message saved – only after the form is live. ☐
- How: Message = intro + services + registration link + website, Facebook, TikTok, professional email, phone & hours, WhatsApp Business → Business tools → Greeting message → paste → Recipients: Everyone → Save.
200. Quick reply jingle saved with the jingle audio. ☐
- How: Business tools → Quick replies → + → shortcut jingle → attach audio → Save.
201. Existing customer folders renamed to their GM numbers. ☐
202. Each staff member has their own Chrome profile. ☐
203. AnyDesk on Grony 1 & 2; address sent to owner. ☐
- How: anydesk.com → install → send the address. Accept only when the owner has called first.

204. Fast-pace processes written and pasted at the stations; this checklist printed and posted. ☐

N. FACEBOOK PAGE & META BUSINESS SUITE

205. Retry renaming Grony TV → Grony Multimedia (first try failed). ☐
- How: Page → Settings → Page setup → Name. If refused: wait 7 days, post a few times, then retry; or request via Meta Business Suite → Settings → Business assets.
206. Logo, cover photo, shop address, company number, WhatsApp button and @username set. ☐
207. Joe given full control as backup. ☐
- How: Owner's phone: Page profile → Settings → Page setup → Page access → Add new → Joe → turn on full control → Give access → Joe accepts.
208. Meta Business Suite on the company phone, logged in as Joe. ☐
- How: Play Store → Meta Business Suite → log in with Joe's Facebook → choose the Page → allow notifications.
209. Staff who post have task access only (content + messages). Staff who prefer not to use their own Facebook post from the company phone; sharing a Page post needs no access. ☐
210. Friends invited by owner and staff; Page link and QR at the counter. ☐

O. TRAINING

211. Joe shown how to sell the fill material. ☐
212. Advertisement tutorial: recording, CapCut, posting, sharing. ☐
213. Every staff member taken through this checklist, the extinguisher and the alarm test. ☐
214. Claude tutorials written and given; clock-in, Live Sale and COUNT NOW shown. ☐

P. ADVERTS

215. Services advert recorded: photocopy, printing, passport photos, large format, posters, banners, stickers. ☐
216. New jingle made, played at the roadside and saved as jingle. ☐
217. Content-change & website-creation advert recorded; website & app development jingle made. ☐
218. Video Recording Plan followed: arrange goods → film display → one item at a time → ongoing work → ask permission → interview customers. ☐
219. Video advert made from the Video folder clips with Claude (Joe); TV advert loaded. ☐

Q. BUSINESS EXPANSION

220. DTF machine: current price and profitability enquired. ☐
221. Price list for all goods and services created and given to staff. ☐

STRATEGIES – FEWER THE MERRIER

1. _____

2. _____

STRATEGIES – FAST WORK ON ALL SERVICES
